

Example School

How are we implementing PBIS at our school in Tier I?

The Tiered Fidelity Inventory (our PBIS assessment) indicates that we are implementing Tier I with fidelity at 70%. Within the core features, we are above benchmark in Implementation and Evaluation. However, we are 25% in Teams. In our action plan, we have focused on items to improve our Team structure.

What is our Office Discipline Referral rate?

Our referral rate was above the nation average the first part of the year. After we retaught expectations and were consistent with our acknowledgement and consequence systems, there was a decline in the average referrals per day. We ended the year at well below the national average for our size and level of school

How is our attendance?

Last Year: 83.5% This Year: 93.5%

Our Attendance Initiative is producing excellent results and we are working to continue to improve our attendance. Thank you families for your help in this wonderful progress?

What is our Action Plan for the next school year?

In reviewing our behavioral attendance data, we have the following goals:

- 1) We will expand our PBIS Team to include more representative teaching staff and include a family member.
- 2) We will have monthly meetings the third Wednesday of every month alternating before and after school.
- 3) Our team will attend the TIPS (Team Initiated Problem Solving) training so that the meetings are more efficient and effective

If you are interested in serving as a member of the PBIS Team, please contact Joan Smith at jsmith@example.school.org or call the school at 987-654-3210.
